

The Carl Moyer Clean Engine Incentive Program

August 17, 2007

What is the Carl Moyer Program?

The Carl Moyer Program provides monetary grants to private companies and public agencies that clean up their heavy-duty engines more than required by air pollution regulations. For example, instead of rebuilding a 1983 diesel engine for \$7,000, a company may choose to repower with a 1991 certified diesel engine at a cost of \$30,000. A grant for up to the difference (or “incremental cost”) – \$23,000 – may be available through the Carl Moyer Program in order to buy the lower emission engine and provide clean air benefits.

What types of projects qualify for the Carl Moyer Program?

Projects that reduce emissions from heavy-duty on and off-road equipment qualify for Carl Moyer Program grants. This includes on-road trucks over 14,000 gross vehicle weight, and off-road equipment such as construction and farm equipment; marine vessels and locomotives; stationary agricultural equipment; forklifts; and airport ground support equipment.

In addition, legislation in 2004 expanded the program to include additional agricultural sources of air pollution as well as passenger cars. ARB staff is evaluating protocols for funding projects to reduce emissions from additional agricultural sources and cars.

How is the size of the Carl Moyer Program grant determined?

Carl Moyer Program grants are based on the “incremental cost” and the emission benefits of the project. Your local air district can assist you in determining the funding for which you are eligible.

How can I apply for a Carl Moyer Program grant?

Carl Moyer Program grants are issued locally by air pollution control districts and air quality management districts. Air districts must adhere to minimum guidelines developed by the Air Resources Board in awarding grants; however, districts may choose to set more stringent criteria. Each district has its own application and selection timeline and process. Contact your local air district for additional information. Carl Moyer Program contacts for each local air district are listed on the next page of this fact sheet.

Where can I get more information about Carl Moyer Program grants?

For additional information, contact your local air district (see the next page of this fact sheet) or contact Lucina Negrete at the Air Resources Board at (916) 445-6138 or lnegrete@arb.ca.gov.
